

1 Minute paper

I like the 2 minute break at the beginning. I also like the group activities we do.

The thing I dont like in the class is how cold it gets in here.

9/23/17

Today's class was good

it really made me think about
my future career ~~choices~~ choices and
what I want to do later on.

Today's class went really well I missed you last weekend how did everything go? I've gotten all my work done and I feel like I did really good on my essay. I liked the compare and contrast topic I'm going to enjoy it.

Question

Am I missing anything?

Today's class was very informative, such as going over verb agreements and how to structure sentences differently in order to describe the verb agreement.

The only thing I don't understand, is the writing center. Are we required to use the writing center for all the assignments? Or is it optional?

Urdu 2020

~~Urdu~~

Today I learned more about subject
verbs and I did not know most
of the information that was taught
today, I really liked the activities
we did today being able to
hear everyone's ideas. It was a good
class session.

1 minute Reflection

Today's class was relaxing as usual. I would like to do a lot more group talks, because it allows us to get to know more about the other person in class. The video was helpful because it broke down the importance and right ways to use writing techniques.

Today in class we went over how we edited our papers. how we have campus resources we should take advantage of. such as the writing center and tutors. we also went over subject verbs and some of the rules for them. lastly we started writing the topics for our new paper.

Today, it was another good day in class. I have gained more knowledge knowing that writing can be a hard subject to learn and not to be afraid if I don't understand it.

Speaking up in class because it is okay to ask.

Hernandez

Today's Class was very helpful for me in different ways. I narrowed down to two choices of what I wanted to be when I get older as a Career. Another thing that helped me today was how to use the writing center. Overall today was a very good educational class.

Today was good. Instructions were clear. I thought
that the widows were very helpful and allowed me to learn
new things like collective nouns and definite pronouns.
