Scanner Registration Count	172	185	36	393
Manual Registration Count	119	116	11	246
Total Registration Count	291	301	47	**639**

Students who did not have their Student ID were prompted to check-in on iPads that were available. The iPad had a preloaded Google Form with fields including MEID, and if they were a community member, First and Last Name and Email Address. This data was then merged into one single registration document to be shared with other campus departments for tracking purposes. The "I Will Graduate" team also plans to use this data to design targeted messaging communications to student participants.
